Past performance is not a guarantee of future results.

Ashmore EMM, L.L.C. (AshmoreEMM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. AshmoreEMM has been independently verified for the periods January 1, 1994 through March 31, 2012. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Middle East composite has been examined for the periods January 1, 2005 through March 31, 2012. The verification and performance examination reports are available upon request.

Prospective investors should obtain and review the offering documents relating to the units or shares of any Fund, including the description of risk factors/investment considerations contained in the offering documents, prior to making any decision to invest in such units or shares.

AshmoreEMM Middle East Composite – as of December 31, 2012

NOTES ON ASHMOREEMM MIDDLE EAST COMPOSITE

(Figures are based on most recent estimates)

1. The AshmoreEMM Middle East composite is a specialized strategy that focuses on equity and equity related securities of companies traded in Middle East securities markets. This composite was created on January 1, 2005.
2. Effective June 1, 2011 the composite name changed from Emerging Markets Composite – Middle East to AshmoreEMM Middle East Composite.
3. The benchmark for this composite is a custom index created and maintained by S&P. This index is a two-tiered, equally weighted index; large-cap companies (over $2 billion) are equally weighted. Investable small-cap companies (over $500 million but less than $2 billion) are also equally weighted, but at half the weight of large-caps. The definitions of "large cap" and "small cap" companies used for purposes of calculating the benchmark may be updated from time to time, and were last updated effective July 1, 2008. No country's weight may exceed 30% of the index. Countries and companies are added as they legally and operationally become available for U.S.-based institutional investment. The S&P custom Index is reported gross of withholding taxes. NOTE: The benchmark returns initially reported for 2008 (-44.2%) and the first quarter of 2009 (-13.1%) were calculated using an inaccurate methodology, and these returns have been corrected and restated within the composite information above. This correction did not affect the way that the single portfolio included in the composite is managed or constructed, as the portfolio is managed using a bottom-up stock picking process.
4. Composite results for the full historical period are time-weighted and include reinvestment of dividends and capital gains. Results for the single investment fund included in the composite were calculated monthly and linked geometrically. Management fees are accrued monthly and included in the fund's net asset value calculation. Gross of fees returns for investment funds are obtained by adding back the fee for each month. The composite is asset-weighted by beginning of month asset values. The composite returns are net of brokerage and other administration fees.
5. N/A – Composite dispersion is not presented because information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. Standard deviation is not presented because 36 monthly returns are not available.
6. Total Return information referenced above (both "gross" and "net" of investment management fees) is calculated after deducting applicable administrative and operating expenses, such as custodian fees and/or trading expenses.

GENERAL NOTES ON ALL COMPOSITES

1. AshmoreEMM is a U.S. registered investment management firm that invests exclusively in emerging markets securities. Prior to June 1, 2011, the firm operated as Emerging Markets Management, L.L.C. (EMM). The firm changed its name to Ashmore EMM, L.L.C. (AshmoreEMM) on June 1, 2011, following the acquisition of a majority interest in the firm by Ashmore Group plc. This acquisition did not result in any change to the firm's investment advisory personnel or investment processes.
2. The base currency used to express performance is the U.S. dollar.
3. AshmoreEMM currently offers new separately managed account clients either a tiered (1.25% per annum on the first U.S. $50 million, 0.90% on the next U.S. $100 million, 0.75% on the next U.S. $100 million, and negotiable thereafter) or performance-based (0.50% per annum, plus 20% of value added) advisory fee structure. AshmoreEMM's advisory fees are negotiable based upon account size and other relevant factors. Please see Part II of AshmoreEMM's Form ADV for further information regarding advisory fees.
4. Certain prices and exchange rates used for the individual portfolios within each composite vary due to differences in custodians used by each client.
5. A complete list and description of all of the firm's composites are available upon request. Additional information regarding policies for valuing portfolios, calculating performance and preparing compliant presentations is available upon request.
6. All composites consist exclusively of fee-paying portfolios. Net returns are based on actual investment and performance fees, if applicable.

Prospective investors should obtain and review the offering documents relating to the units or shares of any Fund, including the description of risk factors/investment considerations contained in the offering documents, prior to making any decision to invest in such units or shares.
